## TIFAS® Earth Tab Blind Rivets

### **Copyright**

All texts, images, technical documents and other information contained in this catalogue are subject to copyright held by Titgemeyer GmbH & Co. KG. Any reproduction or disclosure, whether as a copy or other form of duplication or use, is expressly prohibited without the prior consent of Titgemeyer GmbH & Co. KG.

### **Registered trademarks**

The trademarks BÖRTI, GETO, GETO therm, GETOVAN, GTO, LockBolt, MEGA PORT, plasti van, PLYFIX, POLYSTIC, press-ti, RIEKO, RIV-TI, ROLL-TO, TIBOLT, TIBULB, TIFAS, TILA, TIOS and Titgemeyer are registered trademarks and the intellectual property of Titgemeyer GmbH & Co. KG.

### **Term of Delivery and Payment**

All deliveries are carried out in compliance with our Terms of Delivery and Payment.

### **Limitation of liability**

All technical data, performance descriptions, drawings, illustrations, measurements, weights or any other performance data, recommendations and guidelines contained in this catalogue and relating to the installation of parts that we supply are only binding if so expressly agreed. Moreover, the user is obliged at all times to check each individual use and decide whether the components that we supply can be used as needed.

We accept liability in the case of wilful intent, gross negligence and infringement of cardinal contractual duties as well as for errors in respect of express or implied representations. Notwithstanding this, any claims for compensation not explicitly agreed to in these terms and conditions are hereby excluded in the case of customers who are not consumers and, in the case of such customers, who are not consumers, at all events limited to the damage foreseeable at the time of concluding the contract as well as to the value of the delivered consignment. To the extent that our liability is excluded or limited, this shall extend accordingly to the personal liability of employees, legal representatives and vicarious agents. In all instances of gross negligence committed by vicarious agents, we shall solely be liable to customers, who are not consumers, to compensate for typically foreseeable damage. The statutory regulation governing the burden of proof shall remain unaffected. The aforementioned limitation of liability shall not apply to claims resulting from product liability, for damage resulting from injury to life, limb or health, or for damage to privately used property.

**All technical specifications contained in this brochure are approximate and no guarantee is given as to their accuracy. Designs are subject to change.**

Example: 2 and 4-pole earth tab blind rivet

## Safety requirements for electrical appliances

Electrical installations are fitted in numerous household appliances, such as heating appliances. These are subject to regulation under the household appliance standards, irrespective of whether they are used in residential, commercial or industrial applications. DIN EN 60335-1 regulates the safety of electrical appliances and machinery that are operated in the so-called household environment and where the rated voltage of single-phase appliances and machinery does not exceed 250 V. TIFAS® earth tab blind rivets are available with 1, 2 or 4 earthing conductors in compliance with IEC 760. TIFAS® earth tab blind rivets have also been tested to VDE standards.

## With safe installation of earthing connectors in mind

TIFAS® earth tab blind rivets have been specially engineered to enable every type of earthing connector to be quickly and safely installed in electrical appliances. They are supplied with standards-compliant, integrated spade connectors to ensure that the appliance or machine is properly earthed. Just like any other rivet, TIFAS® earth tab blind rivets insert into pre-drilled holes on the substrate and are permanently fastened to the component with the aid of a suitable rivet installation tool. During installation, three integrated brass tabs are pressed into the panelling to provide for good electrical conductivity.

## Benefits at a glance

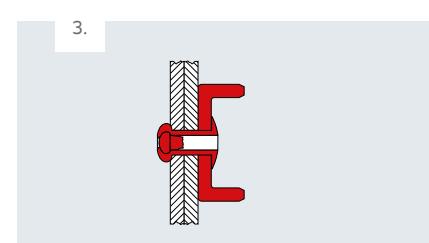

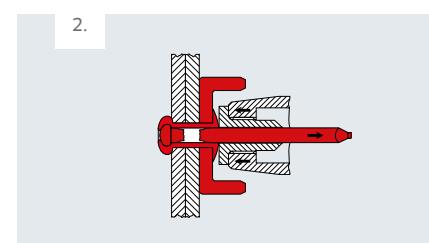

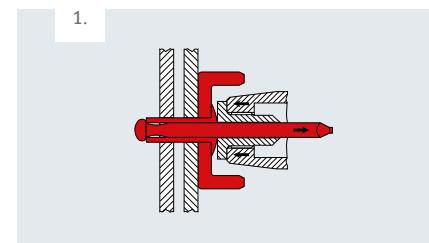

- Quick and secure installation
- Permanent fastener guards against unauthorised removal.
- Standards-compliant spade connector
- Three tabs provide good electrical connection
- Various designs available: 1, 2 or 4-pole
- Optionally available with additional surface coating (tin plating)
- VDE-tested
- Up to 60% cost savings compared to screws or welding (fewer components and faster installation)

## Applications

- Household appliances
- Transport technology
- Farm machinery
- General industry

Dieser Prüfbericht enthält das Ergebnis einer einmaligen Untersuchung an dem zur Prüfung vorgelegten Erzeugnis. Ein Muster dieses Erzeugnisses wurde geprüft, um die Übereinstimmung mit den nachfolgend aufgeführten Normen bzw. Abschnitten von Normen festzustellen. Der Prüfbericht berechtigt Sie nicht zur Benutzung eines Zertifizierungszeichens des VDE und berücksichtigt ausschließlich die Anforderungen der unten genannten Regelwerke. Wenn gegenüber Dritten auf diesen Prüfbericht Bezug genommen wird, muss dieser Prüfbericht in voller Länge an gleicher Stelle verfügbar gemacht werden. <i>This test report contains the result of a singular investigation carried out on the product submitted. A sample of this product was tested to find the accordance with the thereafter listed standards or clauses of standards resp.</i>					
<i>The test report does not entitle for the use of a VDE Certification Mark and considers solely the requirements of the specifications mentioned below. Whenever reference is made to this test report towards third party, this test report shall be made available on the very spot in full length.</i>

## About us

The Titgemeyer Group is a leading company for fastening technology and vehicle components at 15 locations in Europe.

The traditional company develops, manufactures and sells more than 30,000 fastening elements, tools and vehicle components – in series production and on request.
